App development, Shopify APIs, Liquid, Online Store 2.0, themes, app blocks, webhooks, subscriptions, storefront widgets

PAYMENTS & BILLING

Stripe, PayPal, Razorpay, recurring billing, refunds, wallet/card payments, transaction status handling

BACKEND & DATA

PHP, Symfony, Laravel, Node.js, REST, GraphQL, MySQL, Redis, RabbitMQ

FRONTEND & DELIVERY

React, Next.js, Inertia, JavaScript, Ajax, Tailwind CSS, Less CSS, Git/GitHub, Postman, Agile, API documentation

PROFESSIONAL EXPERIENCE

STELLEN INFOTECH

Mar 2026 - Present

Sr. PHP Developer

- Develop and maintain **Shopify SaaS applications** using **PHP**, **Shopify APIs**, and scalable backend services for merchant and customer workflows.
- Build and enhance **Shopify themes** and **Liquid customizations** including storefront sections, theme settings, UI refinements, and performance-focused updates.
- Guide interns through **task assignment**, implementation support, and **code review**, with emphasis on development best practices.

WEBKUL

Feb 2023 - Feb 2026

Full Stack Developer | Software Engineer

- Worked across **PHP**, **Symfony**, and **Shopify** on production eCommerce and SaaS features.
- Developed **Shopify subscription apps**, **payment services**, and **AMP solutions** using APIs, webhooks, backend services, and performance-focused storefront templates.
- Handled **requirement analysis**, **code reviews**, **mentoring**, and stakeholder coordination across feature delivery.

QUANTUM IT INNOVATION

Jun 2022 - Dec 2022

Tester

- Tested **web and Android applications** through unit, **functional**, and **non-functional testing**.
- Prepared **requirement documentation** based on client needs and application behavior

SELECTED PROJECTS

Product Subscription App

Webkul

Shopify APIs | PHP | Symfony | REST | Webhooks | Recurring Billing

- Built subscription workflows with flexible delivery cycles and customer self-service, including pause / skip / cancel / renew controls and wallet/card payments.
- Connected payment and webhook flows to keep billing, order, admin, and customer states synchronized.

Payment Service API

Webkul

Symfony | Stripe | PayPal | Razorpay | REST APIs | Refunds | Webhooks

- Developed reusable multi-gateway APIs for payment creation, status checks, refunds, webhooks, and transaction-state handling.
- Prepared integration-ready API documentation for consistent external-service adoption.

Shopify AMP App

Webkul

Shopify | AMP | Performance | SEO

- Built and maintained mobile-optimized AMP storefront templates with responsive layouts, SEO compliance, and page-speed improvements.

ReviewHub

Stellen Infotech

Shopify | Reviews SaaS | Storefront Widgets

- Worked on a Shopify review-management app for reviews, star ratings, testimonials, and storefront widgets.

Fizazzle Booking Platform

Selected Project

Laravel | Inertia | React | Stripe

- Built customer, admin, and vendor booking workflows covering scheduling, vendor assignment, invoices/PDFs, payment status, earnings, and email communication.

Additional Shopify Work

Selected Work

User Central | White Rabbit Rice | Cozy Lifestyle | SG Magnetics

- Delivered and supported Shopify storefront and customer-account workflows across multiple merchant projects, including theme/UI refinements and production support.

EDUCATION

Master of Computer Applications (MCA)
